Dear Cal Jr.,

I have been meaning to write you and let you know how happy I was with your firm. The reason I selected you as my architect was that my daughter and I were walking around Normandy Beach and we loved a home. It had such charm. I asked the owner who the architect was, he gave me your dads' name. I called and your dad and he met with us. I knew when I first met him that your architectural firm and its build design aspect would not only satisfy the house needs but that it also would be such a pleasure working with a hands on company.

The extensive detail in the preparation of your drawings was extrodinary and my budget was well within my goal !!!

The design build aspect was a total success.

I was able to travel and never have to worry about things not getting done. It was great not having to deal with electricians, plumbers and contractors. Your partner Rick Popovitch was excellent and he and his men did a fantastic job with all of the detail work as well as the basic construction of the home. If anyone would like to call me for a reference, I would be more than happy to recommend you and your team.

Warm Regards.

Linda Blatt
